Old Business- Parking training discussion, Robin- No follow up yet. She has spoken with Lisa Eliason about legalities of parking regulations. Some discussion follows. Are things different in other cities? Micro grants are being offered from the city to pay for things. We could use it for education purposes on parking.

Athena award, Berry- The event went well and was well attended. The award should be a stand alone event and not connected to the disabilities speaks time. The nomination process has been a problem. Only two or three people have been nominated. Create our own email list for out use. Questions on how the money was used for the event.
